PROFESSIONAL SUMMARY

Data Analyst holding a Bachelor of Business Information Technology (BBIT) degree, with a specialization in Data Science. Proficient in Python, SQL, Power BI, Tableau, and Excel. Well versed in data analysis of healthcare and financial datasets, creating automation solutions, and designing interactive dashboards. Enthusiastic about deriving meaningful insights from data and improving skills in analytics and artificial intelligence.

TECHNICAL SKILLS

- Data Science & Visualization: Power BI, Excel (Advanced), Tableau
- Programming Languages: Python, JavaScript, SQL
- Database Management: MySQL, Firebase
- Software Development & Automation

BUSINESS AND FINANCE SKILLS

- Financial & Business Analysis
- Project Management & Agile Methodologies
- Risk Assessment & Compliance

EXPERIENCE

Junior Data Analyst – Doctors Plaza, Kenyatta National Hospital (Under Dr. J.O Oraya)
(Sep 2022 – Feb 2025)

- Analyzed over 10,000 patient records to identify healthcare trends.
- Built Excel dashboards for hospital reporting.
- Improved reporting accuracy by reducing manual data cleaning.

United Nations Volunteer in E-learning Development (Online)
(Apr 2024 – Sep 2024)

- Developed financial automation tools using Python, reducing manual work by 30%.
- Created SQL-based data management systems for handling large datasets efficiently.
- Assisted in web development projects using React.js, focusing on user-friendly interfaces for business applications.

EDUCATION

Bachelor of Business Information Technology
Multimedia University of Kenya | Sept 2022 – October 2026

Kenya Certificate of Secondary Education (K.C.S.E)
St. Joseph School Rapogi | 2018–2022 | Grade: B Plain

Kenya Certificate of Primary Education (K.C.P.E)
Gethsemane Garden Academy | 2014–2017 | Marks: 386

CERTIFICATION AND ACHIEVEMENTS

- Completion of Introduction to Data Analytics – Simplilearn
- Certificate of Completion of SQL language – Simplilearn
- Completion of Fundamentals of Databases – Simplilearn
- Completion of Data Science with Python – Simplileran
- Completion of Data Science and Analytics – Digital Business Skill HP Life
- Tech and Innovation Summit (Feb 2024) – Mount Kenya University
- 6th Students Economic Symposium (Mar 2024) – Kenyatta University
- 3rd National Economics Debate (Nov 2024) – University of Nairobi.

PTOJECTS

Financial Data Automation & Analysis (Python, Excel, Power BI)
Automated data processing tasks in Excel using Python scripts.
Developed a financial risk assessment model to evaluate investment strategies.

Weather Dashboard | React, Open Weather API
Developed a real-time weather dashboard, used in 3 continents, with 95% API reliability.
Optimized API calls, reducing data fetching time by 40%, improving remote performance.

Tata Group Data Analytics Job Simulation on Forage – July 2025

- Completed a job simulation involving AI-powered data analytics and strategy development for the Financial Services team at Tata iQ.
- Conducted exploratory data analysis (EDA) using GenAI tools to assess data quality, identify risk indicators, and structure insights for predictive modeling.
- Proposed and justified an initial no-code predictive modeling framework to assess customer delinquency risk, leveraging GenAI for structured model logic and evaluation criteria.
- Designed an AI-driven collections strategy leveraging agentic AI and automation, incorporating ethical AI principles, regulatory compliance, and scalable implementation frameworks.
